THE DECLINE OF HUMAN INTERACTION

I can remember when socializing, mingling, hanging out, networking meant getting dressed and going out to the most popular hangout. Now to socialize is to have an account like Facebook, Instagram, Twitter, LinkedIn, Youtube, Twitch, etc. and if you are not on one of these sites you are not on the map. This new way of socializing is called Social Media and this is where the networking is now taking place.

Oddly enough, now you can sit behind a computer screen in your pajamas and become famous for taking the best selfie. It is not uncommon to be the envy of the world for having the "Perfect Body" in every picture, tweet, or post on a verified page. We all have isolated ourselves and most physical interaction is void outside of a normal workplace.

Discovering new talent at the local music venue may be a rare occasion, but I love the excitement of the human condition.

**ADINA HOWARD
IS BACK AND
HER FAITH IS
STRONGER
THAN EVER!**

Adina Howard has evolved as a woman and an artist. All that she has left behind to become who she is today can be heard on her new album "Resurrection", released digitally, March 2018.

Her socially conscience lead single "Blasphemy" has the nostalgic cadence of Lift Every Voice/Black American National Anthem woven into the melody. This urban battle cry encourages one to wake up and recognize the God within. Blasphemy is the perfect showcase for her legions of angels to hear her deliver vocals that's music to their ears and an empowering message that will inspire their soul.

Currently, the multi-dimensional songstress is touring the globe entertaining her following with her classics as well as promoting her recently released album "Resurrection".

SCALAR ENERGY TOM PALADINO SELFHEALGO.COM

Tom Paladino began research with scalar energy, aka the Creative Strength, during his under-graduate years. He was inspired by various scientists, especially Nikola Tesla, as to the existence of an energy that was not of the electromagnetic spectrum. With this inspiration, he pursued a course of independent study in order to better understand and subsequently harness scalar energy. Scalar energy is also known as prana, chi, radiant energy, zero point energy, qi, orgone, eloptic energy. After years of experimentation and modification, Tom has developed a technique using scalar energy that will transmute pathogens quickly and painlessly. This technique facilitates the use of photographs of people who desire to have pathogens transmuted in their bodies.

He has developed a remote treatment process whereby he is able to administer the scalar energy reverse-phase angle harmonic of a pathogen, thereby causing that agent of infection to disassemble or fall apart. Scalar energy operates at the quantum level and is capable of disassembling all types of pathogens thus eliminating the causative agent of disease. Once the causative agent of a pathogen disease has been eliminated the symptoms associated with that infection decrease or disappear altogether.

Recent discoveries as of March, 2012, led Tom to the conclusion that viruses can likewise be transmuted by this process of broadcasting scalar energy. Emboldened by these discoveries, he desires to present the world with the solution for ALL bacterial, fungal, protozoan and viral infections. It is his belief and statement that the scalar energy is capable of transmuting ALL pathogens thus presenting the world with the SOLUTION for thousands of pathogenic diseases.

UPDATE: as of May 6, 2013, Tom had a breakthrough with the herpes virus. Click here to review the article

UPDATE: July 20-23, 2015 – Tom has started clinical trials with a medical institution. This week, they watched the pathogens (protozoa) disassemble in front of their eyes. They video taped each experiment. We are so excited!

Updates

As you can see we are making moves to reach more, help more, inspire more, and become greater.

We have now begun to broadcast on Spotify and iHeart Radio podcasts.

We are also excited to announce our Roku TV station will be up and running by the end of July 2018.

Please subscribe and watch to help keep our content coming.

If you didn't know, we also have a youtube account with over 100 episodes.

We want to make sure we keep bringing inspiration to motivate you to go after your dreams, and we here at Dream Chasers Radio are taking the initiative, leading by example.
